TO WHOM IT MAY CONCERN:

The purpose of this letter is to lend our total support to CARTER & REDDY ASSOCIATES, INC. hereafter known as C&R.

We have been in contract with C&R for the past two school years serving as one of their Associates providing service in the No Child Left Behind Program.

We have been very impressed with the "Self Directed Learning" curriculum offered by C&R. This curriculum allows each student to learn from the level "where they are" and expand to the level where they want to be. No group learning where everyone is doing the same assignment whether they understand it or not.

C&R has made a commitment to the inner cities as well as at risk youth to give them hope as far as their educational success is concerned.

As C&R expands their curriculum throughout the United States and make school districts aware of it's benefits to student that need special attention, they will be sought out by any organization that wants to improve student achievement.

Both Dr. Carolyn Carter and Mr. Raoul Reddy have made sure that their associates understand their mission of making sure that "each student can and will learn".

The No Child Left Behind staff persons at the SEARCY CENTER have gained much valuable knowledge working with C&R.

If further information is needed, you may contact me at the telephone number listed above.

SINCERELY,
Michael Lee Searcy
