June 30, 2006

To The Interested Parties:

It has been my professional pleasure to be the recipient of the professional services of *Carter, Reddy and Associates*. Don Bosco Hall has been, and remains the Detroit communities' social service agency of record. Since 1954 we have served the larger Detroit community, we proudly cite *Mr. Thomas Monahan*, founder and CEO of *Dominos Pizza* as one of our esteemed alumni. Our present day legacy is one of providing high quality social, emotional, and academic enrichment services to youth and their families in a variety of venues throughout Detroit and greater Wayne County.

Since we began our tenure with Carter, Reddy, we have enjoyed an immense and effective educational service that has greatly enhanced our varied programs to the populations we serve. C&R has served all levels of programming that we offer to students, both in our residential care and our outreach programs. I have personally witnessed the results they have garnered from the students I serve at the *Academy of Westland* and *The Cherryhill School of Performing Arts* schools in Westland and Inkster, Michigan Their work was excellent and the students and their parents gave them rave reviews for their innovation and results. We are very pleased with the services provided by C&R and hope to enjoy a long and continued relationship with them.

If I may be of any additional source of query about C&R and the services they have provided for us do not hesitate to contact me directly. Thank you for this opportunity to share my zeal for Carter, Reddy, and Associates.

Most Sincerely,

Larry M. Lunsford, Director
Community Enrichment Services
Don Bosco Hall
