Tommy Thompson, Principal

To whom this may concern.

Ryan Austin participated in the tutorial program for school term 2006-2007. Ryan has enjoyed being in the program and has made a lot of progress. Mrs. Carr has helped Ryan become flexible and eager to learn. He now demonstrates the ability to function without getting frustrated. Ryan completes task that were difficult for him in the beginning. His reading level has gone from intensive to strategic. With the help of this program I have been able to see a difference in Ryan's attitude towards learning.

Tiffany Thomas, teacher
