

To Whom It May Concern:

Dr. Carolyn Carter presented her *Integrating Students into the Curriculum* at the **3rd annual Wayne County Community College District (WCCCD) Conference Day** on Tuesday, October 26, 2004. She conducted two presentations with co-presenter Raahul Reddy.

Her audience was heavily populated with WCCCD faculty who positively embraced the techniques and strategies that she offered during her presentation. Many of the faculty had written rave reviews about her presentation, documenting in their evaluations that she connected with them and that she clearly understood their needs within the community college setting. Participants commented that they enjoyed the energetic pace and format of the presentation and would love to have her back for next year's conference.

WCCCD enjoyed having Dr. Carter as a workshop presenter and looks forward to working with her again in the future for other professional and staff development endeavors. She was phenomenally enthusiastic and motivational in the eyes of our faculty!

Sincerely,

Lauren Ferguson

Assistant to the Provost
Wayne County Community College District
